

DECK ARMOR-R

Rubberized Flexible Polyurethane Non-Slip System

Deck Armor-R is a decorative flexible coating system that incorporates rubber granules for both non-slip properties and to provide a softer feel to bare feet. The system is based on a “soft feel” flexible water based color and gloss retentive polyurethane coating system. The Deck Armor-R is easy to apply with a roller or hopper spray gun and is available in a wide variety of bright colors.

Features

- Soft rubber granule anti-slip material
- Flexible coating system
- Single package system
- Water based system
- Can be applied to concrete, wood & asphalt

The System

This system is comprised of combining a resilient EPDM granule with a flexible water-based polyurethane coating system. The granule provides anti-slip properties but with a softer feel to bare feet.

Available in two levels of granule texture: fine and medium.
